Personal Statement

A motivated T Level Digital Software Development student with a practical, hands-on approach to learning. I have developed a solid foundation in software development and digital technologies, and I enjoy working through problems in a calm, methodical way. I take feedback seriously, work well with others, and stay organised under pressure. I am seeking a placement where initiative, curiosity, and willingness to learn are valued as much as experience.

Education

T Level — Digital Software Development

Sept 2025 – Present

Reading College, Reading

- Industry-standard programme covering software engineering, databases, networking and professional development.
- Includes a mandatory industry placement component.
